Project Discovery Day Workshops Needed

Project Discovery is set for January 25th from 9:00 AM-Noon

Plan on each session lasting approximately 30 minutes along with repeating the session up to 4 times. Participant numbers will vary, as we do not have registration info yet. But plan on approximately 5-7 youth per session.

So what type of activity may you lead? Well, that is entirely up to you. It could be a hobby you enjoy, a project, an information session on any topic...the sky is the limit! Be creative! Sessions that work best are those that are interactive or have a take away feature. Past sessions have included: cookie decorating, jewelry making, Lego building, games, rabbits 101, juggling balls, etc.

January 25, 2020 does seem like a long ways away at this point, however, we need to get sign up information in an upcoming Forecast along with planning space needs and supply lists. Please return the attached sheet to the 4-H office with information about your workshop, age of participants, special needs: number of tables, closeness to a sink or outlets, and such, by November 26, 2019.

SPACE CAMP 2020

April 16-20, 2020

WHAT IS SPACE CAMP?

Space Camp is just what you think it is – it's a camp experience where you learn and experience different aspects about life as an astronaut, working at NASA, and exploring places beyond Earth!

Wisconsin 4-H Space Camp participants experience the Pathfinder Program. The Pathfinder Program is a 3 day experience where youth participate in a variety of simulated space activities, such as:

- A Simulated Space Mission (including roles at mission control, on the ISS, in a space shuttle, and on the surface of the moon) with a team of other 4-Her's.
- A variety of Space Simulators such as the multi-axis trainer, five degrees of freedom chair, and the space shot.
- Building and launching their own model rocket.
- On-site meals and sleeping habitats simulating a real space training experience.
- Learning all about space exploration and astronaut life in museum tours guided by a Space Camp expert.
- A team quiz bowl where participants test their knowledge against others at the end of camp.

Those are just a few of the activities that youth will experience while at Space Camp. Every activity has an educational purpose with the goal of teaching kids all about space, STEM, and teamwork. All of these activities are done in a team with other 4-H youth and adults from across the state of Wisconsin.

Qualifications

- 4-H members in grades 6-8 with a maximum age of 15
- Currently enrolled and in good standing with 4-H
- Enrollment in 4-H Aerospace project is not required
- May only attend Space Camp once as a delegate
